ULTIMATIC TIP - LOW PRESSURE VERSION.

Part No: BL-TO

Fog Pattern Method	Molded Rubber Teeth (fixed)
Flow Control Method	Automatic (constant pressure, variable flow, constant gallonage, flow does not change with pattern)
Flow Rate	10-100 gpm (40-400 l/min)
Coupling Size (Nozzles)	1.0 inch (25mm)
Coupling Style (Nozzles)	Knurled (Diamond pattern)
Coupling Swiveling/Rigid (Nozzles)	Rigid
Pressure	75 psi (5bar)
Nozzle Body Style	Tip with no shutoff
Valve Design	No Valve
Valve Actuation Method	No Actuation Method
Nozzle Bumper Material	Rubber - bonded

PRODUCT SERIES OVERVIEW

- The Ultimatic nozzle incorporates TFT's unique stainless steel slide valve for turbulence free flow control and includes the exclusive integrated debris screen to prevent stream quality degradation. All models accept low and multi-expansion foam attachments for increased finished foam performance.

- The Ultimatic nozzle is available with 100 or 75 psi operational pressure choices to meet any fire ground operational challenge. The high strength bonded rubber fog teeth provide a full filled pattern that pushes heat flame and smoke ahead and away from the firefighting team.

- The Ultimatic nozzle comes standard with reflective labeling as well as your choice of color coded pistol grip and shut off handle. This constant pressure variable gallonage nozzle series is available in tip only and shut off configurations, is individually serialized, and comes with TFT's exclusive 5 year warranty.
