JUMBO BARREL STRAINER 4.0" MALE YELLOW

Part No: A02NPM-Y
Details

JUMBO BARREL STRAINER 4.0" MALE YELLOW
ROCKER LUG

Weight: 3.500 lbs (kg)

Water Flow Style	Strainer
Coupling Size Side A	4.0 Inch (100mm)
Coupling Style Side A	Male Threads
Coupling Swiveling/Rigid Side A	Swivel (non-full time, no swivel after tightening)

PRODUCT SERIES OVERVIEW

- TFT's Jumbo Barrel Strainers are produced from lightweight nylon, incorporate a unique coupling attachment system, and are designed for high volume water flow operations. Available in black or high visibility yellow, these strainers are easily stored in compartments or pre-connected to hose lines, and are designed for 2 ½", 4", 5", or 6" lightweight hard suction lines.
- The Low Level / High Volume Strainer provides flow performance up to 1500gpm with minimal loss and incorporates a unique swiveling design that holds the strainer flat on the bottom of the tank maximizing available water flow. The low level design prevents unwanted whirlpools which can cause a loss of prime, as well as allowing water to be drafted to within only a few inches of depth utilizing all available water.
